Dave & Son's Carpentry / Trailer Maintance

"TRAILER MAINTENANCE WORK."

- We "Repair Belly Bags" under trailers & replace wet insulation in your floor system from leaking or broken frozen water lines.
- We do major "Belly Bag Replacements" due to water line breaks or past damages & needs a "partial or full replacement".
- We also install "Double Belly Bags" as well. Especially on real old trailers that have super cold floors (a double belly bag means your adding more insulation to your existing insulation under your trailer floor). Plus, we meet all building codes. (you'll literally save between 25-40% on your fuel bill / year depending on how thick of insulation you install. You can go with either R-20 or R-28 or R-40 insulation).
- Plus the highest tech Lazer Levelling, Blocking replacement or repairs, Skirting, Sewer & Waterline insulating to make sure there's no freeze ups.

"CARPENTRY WORK."

- We do any type of Carpentry as well. Ranging from any size Concrete foundations on bedrock, Custom builds, Renovations & anything else pertaining to Carpentry work. Like for eg: Siding, Decks, Fencing, Flooring, Finishing, Windows & Door installs etc...

"Journeyman Carpenter for 33 years".

" Please call for a free quote".
