## **Large room upstairs w private washroom and deck**

### **Features:**

Private deck where one can see the northern lights

### **Included:**

Mini fridge w private bathroom

Large room upstairs in my home available october 1st. If you are looking for something short term this could be the perfect place. The room is quite large with its own private bathroom that has a lions claw tub and hand held shower, small kitchen table, coffee area and mini fridge. Also included is a private deck to watch the night sky, the stars and of course northern lights. I will go month by month or 2 weeks at a time. No long term stays and no couples or children. Washer and dryer are on the main floor and available to use. Dogs are welcome if they are well manered and get along with the house dog. Would prefer someone who does not cook much. This is a very quiet space so looking for a non partier and NO hard drugs. Must be working. If interested, message me here. Thanks for reading my add. Pictures will be forthcoming.

**Price: \$ 1,600.00**
