## **Anthem Statement P2 Power Amplifier**

If you're looking for a no compromise, dynamic, and impactful amp to bring your speakers alive then look no further. The P2 is built like a tank at 75lbs and has gobs of power to run even the most demanding low impedance or sensitive speakers.

- 325 Watts per channel into 8 ohms
- 500 Watts per channel into 4 ohms
- 675 Watts per channel into 2 ohms

Has always been run with other quality equipment and is in very good condition. Has both balanced XLR as well as unbalanced RCA inputs.

Reason for selling is downsizing my home theater. Also have other anthem gear/speakers for sale if interested just ask.

Original MSRP was \$6000. Sales price reflects recent sold examples over the past year in the low end.

Serious buyers can Demo :)

**Price: \$ 3,000.00 or best offer**

Phone: 403-915-3074
